

Anti-Sexual Harassment toolkit for schools and trusts

In response to legislative updates in October 2024, and the increasing need for educational institutions to foster safe, supportive environments, we are proud to launch our comprehensive Anti-Sexual Harassment Toolkit.

Specifically designed by education experts, this resource helps schools to implement effective, long-term strategies to prevent and address sexual harassment, ensuring legal compliance and nurturing a culture of respect.

Our toolkit is built to equip schools with the resources needed to establish a zero-tolerance stance, reduce risks, improve staff and student wellbeing, and enhance overall performance.

Our toolkit and training add on includes/covers;

- **Policy templates:** Build compliant policies quickly and easily with HR templates
- **Communication frameworks:** Create an effective communication strategy
- **Reporting procedures:** Establish consistent reporting channels and processes
- **Investigative guides:** Outline clear next steps if a report is received

✓ Policies

✓ HR resources

✓ Expert guidance

Interested in delivering this training to your school or trust? We offer options to purchase the training PPT to deliver yourself or we can organise for one of our education HR experts to deliver the training on your behalf. Get in touch for more information on our training packages.
